

Minutes M.D. Council of St. Land, No. 47

The regular meeting of the Council of the Municipal District of St. Land, No. 47, was held on Monday, November 10, 1937, at 10:00 a.m. The Mayor present as follows:

Reeve McLaren, Mayor; Bruce Nelson, Councilors; Chambers, Brown, Parry.

Minutes of regular meeting of October 21st were read and approved, on motion of Reeve McLaren.

In his monthly report to Council, Field Supervisor Robertson advised that approximately 1,000 calves had been vaccinated to date, and that all arrangements had been made for the "1938" cattle pest program. Terms of agreement between the municipality and Dr. Wm. Lawrence, of Drumheller, were discussed.

Moved by Coun. Brown that Council accept recommendation from the Agricultural Service Board that female calves between the ages of four (4) to fifteen (15) months be vaccinated for leptospirosis control, and that agreement with Dr. Wm. Lawrence be prepared to that effect.

Moved by Dr. Brown Nelson that amendment to the 1937-38 A.B. agreement to enable the Provincial Department of Agriculture to forward for the municipality \$50. per head for each female calf vaccinated during the winter fall and spring vaccination programs be approved, and that the Reeve and Secretary-treasurer be authorized to complete same. Carried.

The Secretary read contents of Agreement for the operation of a pest-infested area to be signed on behalf of the municipality and by Dr. Lawrence. This Agreement was approved by Council.

Moved by Coun. Parry and the Reeve, Secretary-Treasurer and Field Supervisor authorized to sign same on behalf of St. Land Municipality.

Minutes of Agricultural Service Board meeting of October 10th, 1937, were read and approved by Secretary-Merritt.

Mr. Robertson mentioned his Civil Defense activities which included making arrangements for Mrs. Felix Bell of Delta to attend a Civil Defense Welfare Course in Edmonton, during the week of December 6th.

Moved by Coun. Brown and carried, that Reeve Dr. Lawrence, Drumheller, be allowed to \$50.00 of credit over previously stock piled at the Delta City Union Drumheller, on account of his services.

Moved by Reeve McLaren and carried, that application be made to the Chief Bridge Engineer, Bridge Branch, Department of Highways, Edmonton, for inspection at the following locations:

On S.E. 22-16-4 (for widening) a petition from several ratepayers residents in the vicinity of Section 20-17-4, to condition of school bus road.

Moved by Reeve McLaren that Isaac George of road crew be retained for George Place be retained \$14.00 per hour on or after November 1st, 1937. Carried.

Moved by Council Chambers and carried, that the Director

Obituary

Miss Edna Long

Daughter of the late Mr. and Mrs. Bob Long of Delta, who resided at 627, 14th Ave. S.E. Calgary, died in the Col. Belcher Hospital on Wednesday, November 6th, at the age of 32 years, following a lingering illness.

She resided in the C.W.A.C. with which she served overseas in the last war. For the past two years she had been employed in the Calgary Post Office.

The late Miss Long is survived by a sister, Mrs. Rita Lewis, of Vancouver; and two brothers, Sidney of Hanna, and Norris of Edmonton. She was predeceased by a sister, and brother some years ago.

Funeral services were held from Jacques Funeral Home on Saturday afternoon, November 9th, at 1:30 p.m., with Mr. John Blair and Mr. Joseph Blair officiating. Interment took place in the Cemetery of Horn, Burnside, Calgary.

Provincial Planning Advisor

That Council has no objection to proposed service station being proposed adjacent to R.S. 17-4-17-4, and to R.S. 13-5-17-4.

Moved by Coun. Brown and carried, that the Reeve and Secretary-Treasurer be authorized to complete same. Carried.

The Secretary read contents of Agreement for the operation of a pest-infested area to be signed on behalf of the municipality and by Dr. Lawrence. This Agreement was approved by Council.

Moved by Coun. Parry and the Reeve, Secretary-Treasurer and Field Supervisor authorized to sign same on behalf of St. Land Municipality.

Minutes of Agricultural Service Board meeting of October 10th, 1937, were read and approved by Secretary-Merritt.

Mr. Robertson mentioned his Civil Defense activities which included making arrangements for Mrs. Felix Bell of Delta to attend a Civil Defense Welfare Course in Edmonton, during the week of December 6th.

Moved by Coun. Brown and carried, that Reeve Dr. Lawrence, Drumheller, be allowed to \$50.00 of credit over previously stock piled at the Delta City Union Drumheller, on account of his services.

Moved by Reeve McLaren and carried, that application be made to the Chief Bridge Engineer, Bridge Branch, Department of Highways, Edmonton, for inspection at the following locations:

On S.E. 22-16-4 (for widening) a petition from several ratepayers residents in the vicinity of Section 20-17-4, to condition of school bus road.

Moved by Reeve McLaren that Isaac George of road crew be retained for George Place be retained \$14.00 per hour on or after November 1st, 1937. Carried.

Moved by Council Chambers and carried, that the Director

Wedding Bells

Hands—Peterson

A very pretty double ring ceremony was held in St. John's Anglican Church, Central Alberta, on Oct. 20th, at 4:00 p.m., when Miss Gloria Isbell Peterson, daughter of Mr. and Mrs. Peterson, of Calgary (formerly of Chibouk), became the bride of Mr. Robert Eidos Hanna, son of Mr. and Mrs. Orval Hanna, of Delta.

Rev. M. Starr, of Hanna, performed the ceremony before an abundant decorated with bouquets of chrysanthemums.

Given in marriage by her grandfather, Mr. K. McElin, of Central, the bride wore a full length gown of pure silk organza. The bride featured a portrait neckline trimmed with sparkling flowers of same material, and short sheer sleeves with long matching gloves. The bouquet consisted of white carnations and white lilies. Her finger-tip illusion net veil was trimmed with sheer tulle and white pearls. She carried a white and mauve orchid in a basket on a white ribbon. Her only jewelry was a pair of cultured pearl earrings, gift of the groom.

Matron of honor, Mrs. Margaret Kraker, sister of the bride, and Miss Delores Williams, was bridesmaid. They wore full length nylon chiffon dresses of shrimp and coral, with white and white matching headpieces and gloves, and carried nosegays of shrimp and green carnation to contrast with their dresses.

The organist was Mrs. Marc Williams. The groom was attended by his two brothers, Donald and Ronald Hanna, as best men.

Mr. Bill Kraker and Mr. John Thiesen were ushers. A reception was held in the Chibouk Community Hall, which was decorated in pink and white streamers. The bride's table was decorated with pink and white streamers, and bouquets of pink carnations, and was centered with a beautifully decorated bride and groom cake.

Guests were received by the bride and groom. The bride's mother wore a two-piece dress with navy and white accessories, and the groom's mother wore a turquoise two-piece dress with navy accessories.

Mr. John Selski made the toast to the bride, and Mr. Donald Hanna made the toast to the bridesmaids.

The Chibouk Ladies Aid for the guests.

For her wedding costume the bride wore a navy blue corded gabardine suit, with navy and powder blue accessories topped with a black cord trimmed with white fur. Her corsage was pink carnations.

After a honeymoon trip to points in the United States and Canada, Mr. and Mrs. Bob Hanna will reside at 621-5th St. N.E. Calgary.

Out of town guests were: H. G. Hanna, groom's father, of Delta; Mr. and Mrs. George McKay and family, all of Delta; Mr. and Mrs. Ronald Hanna, Calgary, Alberta.

A wedding dance was held in the evening at the Chibouk Hall, with the O.C. Orchestra of Open, in attendance. Before the happy couple left on their trip they were presented with a purse of money, and best wishes of their many friends.

Old Age Pensions

Eligible old age and blind pensions in Alberta, on an anticipated no delay in payment of the nine-fifths increase to \$55 in basic pensions which went into effect on Oct. 20, 1937. Efforts are being made to have upward adjustments included in November cheques which will be mailed during the latter part of the month. It was announced this week by Hon. R. D. Jorgenson, Minister of Public Welfare.

New pensioners who became eligible through easing of residence requirements should also be included in November payments. Additions to the list of pensioners and adjustments which cannot be processed before the end of this month will be carried over into payment shortly after the middle of December.

Widows' Pensions and Disabled Persons' Pensions paid entirely by the province are also raised by nine dollars. Increased pensions in other categories are still shared equally by the federal and provincial governments.

Overall increases in basic pensions will cost the provincial treasury an estimated \$1,450,000 per year. From now to the end of the current fiscal year, March 31, 1938, the cost is placed at \$600,000.

Matron of honor, Mrs. Margaret Kraker, sister of the bride, and Miss Delores Williams, was bridesmaid. They wore full length nylon chiffon dresses of shrimp and coral, with white and white matching headpieces and gloves, and carried nosegays of shrimp and green carnation to contrast with their dresses.

Rye and Flax

A bill was introduced into the house of commons last week to plan rye and flax under the auspices of the Canadian Wheat Board. It did not come to a vote within the allotted time for private members' bills, and goes to the foot of the order paper for future consideration. The government did not consult itself on the issue.

Storage of Apples

The rate at which apples lose firmness in storage is influenced by temperature, according to a list at the Canada Department of Agriculture Experimental Farm, Summerland, B.C. It was found that McIntosh apples stored at 32 degrees F. took 70 days to lose firmness to the same degree as was reached in seven days when stored at 70 degrees F.

Maybe a meteor?

Was it a rocket, a jet plane or flying saucer?
Tuesday at 5 p.m., just as the sky darkened, residents here gazed soaring into the western sky a pebble of fiery light. It quivered upward to a great arc and at the top of the curvy an explosion appeared to occur, sending the rocket, jet, saucer? Who knows?

A great bright radiance out all-around and vapor took the shape of five small balls when the hot gas spouting backward from

And if so—how?
Observant, noted observers, noting the great excitement and speed of the course, thought nothing but a rocket could have caused the phenomenon.

Moving almost directly eastward, the glowing fire dimmed as approaching the south and faded from view.—The News, Inland Head, Boise, Oct. 31, 1937.

New bank building opened at Herbert

The new bank of Montreal building at Herbert, opened two months ago elicits admiring comment from all who enter.
From the managerial office of the quill-Grundy "Chap" is right down to the basement shelves for the staff, as is as modern as tomorrow, as a matter of fact, it was designed to accommodate a larger staff and an increased volume of business which, no doubt, will be forthcoming as Herbert, already a highly favored shopping center, continues to grow.

With the groundwork for a more extensive irrigation scheme presently laid, with rich grain-growing areas surrounding it, with widely-known ranches to the north from which thousands of cattle move annually, Herbert means destined to grow. The bank of Montreal has granted the local outlet to assure efficient service in an era of expansion.—The Herald, Herbert, Idaho, Oct. 24, 1937.

Loeven proposes city bus route

A proposal for a city bus route was made to City Council last week. Frank Loeven appeared at the meeting with the request that Council members grant him a franchise for a bus company within city limits.

Council was unable to give a reply because no rate or schedule were submitted to them. Planned by lawyer James L. King, who advised him, Mr. Loeven and he wanted the council of Council in principle. Council members refused to be argued into it. As individuals, the City Council admitted the necessity for a bus service, but pointed out to Mr. Loeven that an outline of detail should be presented for their scrutiny before any answer could be given.

The main need for a bus service was for school children living in Trout Whitestone, Council agreed. Mr. Loeven specifically mentioned the lack of transportation for young youngsters. His remarks were later underlined by his lawyer when Mr. King went to address Council members.

The next move for a city transit system is now up to Mr. Loeven, who must submit detail of his proposal to Council.—The Star-Whitestone, Yukon, Sept. 19, 1937.

Erle Roger is inspecting herds

Mr. Erle Roger, Livestock Representative of the Saskatchewan Department of Agriculture, was a visitor in Maple Creek and district to check the records of cattle breeders who are performance testing their herds.

There are a total of 38 purebred herds in the province which undergo performance testing. Only five of these are in the district. Jas. D. Dorken has one herd four miles east of Maple Creek, and Lock Sanderson has a herd near Piquet.

Purpose of the program is to determine the rate of gain of each animal, so that even and bulls which do not produce calves which grow right and are the type required may be culled.

Performance testing involves the weighing of cattle at birth, at the time of weaning, and after they have been on a growing ration for six months. Animals are also graded as to quality.—The News, Maple Creek, Oct. 24, 1937.

ARCTIC YARN

The Arctic tern flies 12,000 miles between its northern and southern haunts. This is believed to be the longest migration of any bird.

CAN'T BE MADE HOTTER
You cannot make boiling water any hotter by turning up the gas. Water cannot be made hotter than its boiling point.

No-fix ticket systems

By Arthur T. Vanderbilt

Chief Justice of the Supreme Court of New Jersey

The courts having jurisdiction over violations of our traffic laws play an important part in the contemplated efforts now being made to increase the safety of our streets and highways. Last year of the approximately 19 million licensed drivers in this country, some 20 million were ticketed for alleged violations. In New Jersey alone our municipal courts handed 190,000 traffic matters and collected \$3,300,000 in fines and costs from wrong drivers. The traffic courts, coming as they do in direct contact with such a large percentage of the population, have become by all odds the most important courts in our judicial system. On them rests the primary responsibility for developing in our citizenry that respect for law which lies at the very foundation of effective traffic law enforcement and on which in the last analysis all of our democratic institutions depend. It is therefore difficult to understand why in many jurisdictions so little attention has been given to the traffic courts and why every proven device to increase their stature and effectiveness has not been utilized.

Perhaps the least common and leastifying criticism of traffic courts has been that so many people have found it possible to evade answering a traffic summons by the well-known political process of having it "stuck" so that the matter will never come up in court. In a nationwide survey of traffic courts made a number of years ago unquestioned evidence of ticket-sticking was found in 39 out of 74 cities covered. In one out of every four cities visited the lag in traffic law enforcement was directly traceable to this invidious practice.

Generally tickets are fixed without the knowledge of the police officer who served the summons or of the judge who should have heard the case. How it is done is one of the mysteries of modern American life, known only to the politically initiated. It is a vice, however, that is readily cured, as has been demonstrated in New Jersey, by the use of a simple unit from non-fixable ticket violation ticket. The police officer makes out the ticket in quadruplicate with the aid of carbon paper. The original goes to the traffic court, one copy goes to the police headquarters, one is retained by the police officer who made it out, and one is handed to the offender. All books of tickets are issued to law enforcement officers by the courts and must be accounted for.

This kind of ticket cannot be fixed without the active aid of three public officials—the judge, the police chief and the issuing officer. After weighing the small chance of success against the very real dangers of failure, few officers would wish to try their while even to try. The ticket is non-fixable in practice as well as in theory. It is simply demonstrated by the experience in Newark, the largest city in New Jersey, in the first four months the new ticket was in use only 607 were not disposed of in court—and most of these had been issued to non-residents who did not intend to return to the state—whereas in the corresponding four months the year before 14,529 tickets were not responded to.

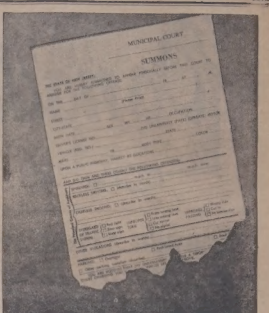

The introduction New Jersey of the uniform non-fixing traffic ticket by rule of court was vigorously opposed by many politicians and some prominent citizens but significantly not by the politicians. A spokesman for their association described it as "an Emancipation Proclamation and a Declaration of Independence for the politician. Caddy, despite its demonstrated success and the endorsement and support of the Conference of Chief Justices, the American Bar Association, and the American Bar Association, as well as many other organizations interested in promoting traffic safety through the improvement of traffic law enforcement, the uniform non-fixable traffic ticket has not caught fire. New Jersey is the only state where its use on a statewide basis has been made mandatory, although it is in use as a large part of New Jersey many cities in Michigan and in scattered cities in some 25 other states.

The time has long since arrived when every city and state should put an end once and for all to the vicious practice of ticket-sticking. The means are at hand. All that is now needed is the will to do something about it and a day or two of courage while the beneficiaries of the old order are bewailing their loss.

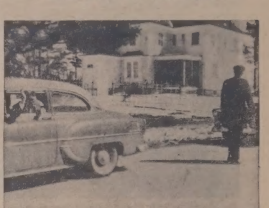

LATIN WORD

We use the abbreviation "p." for "prima" because it is a contraction of "prima," which is the Latin word for "first."

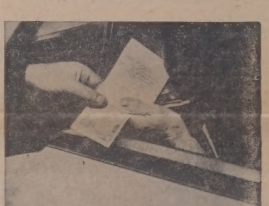

Authorities recognize 38 true violations of check.

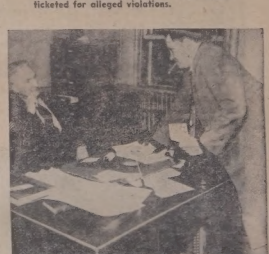

"The kind of ticket that cannot be fixed."

Scottians are responsible for a large percentage of accidents.

70 million licensed drivers . . . 20 million ticketed for alleged violations.

Proper respect for the law . . . foundation of accident prevention.

Will this driver succeed in fixing a ticket?

they'd be cheaper
by the gallon

It costs plenty to raise a family these days. But if youngsters, like your car, ran on gasoline you'd be better off.

Want to know why? Today everything costs more. Including the scores of things a growing family needs. Gasoline costs more, too.

But government figures show that since 1939 the cost of living has gone up more than 120 percent while wholesale gasoline prices have risen about 40 percent — less than a third as much.

And what's more — today's regular — gasolines are far superior to the premium grades sold only ten years ago.

IMPERIAL OIL LIMITED

THURSDAY, NOV. 21, 1957

SOVIET SCIENTIFIC ACHIEVEMENTS

Soviet Union's scientific achievements, as reflected in successful launching of *Sputnik II*, have given further impetus to scientific and engineering research in free world.

Russian space satellites, too, have served useful purpose in heating thorough reappraisal of Western defence policies, long overdue.

Such are positive aspects of Soviet achievement in realm of science. Without pondering, however, are negative aspects, which are several and which constitute real threat to security of the West.

First, impact of Soviet achievement in launching of space satellite upon the ill-informed and often illiterate and superstitious masses of Asia and much of Africa will be devastating. In neutralist countries of Afro-Asian bloc pressure for compromise with Soviet policy, if not for outright collaboration, will mount. It is human nature to respect and admire a winner. Regardless of the practical implications of the space satellites themselves, people in the uncommitted countries of the world will conclude that Soviet Union is a force to be reckoned with in international affairs. If such conclusions are not reached spontaneously

they will be encouraged by communist propaganda.

In Canada, U.S. and U.K. apart from necessity of restraint of defence policies, it is of utmost importance that be given promptly to those who express doubts about efficacy of the free economy to meet the Soviet threat. Industry in particular will have to tell the world, and in particular the U.S. and Canada and the U.K., that it is taking steps to match that of the Soviet program on the scientific front. Government, in turn, should be less prompt in devising fiscal measures that will encourage industrial and scientific research.

EGG MARKETING PLEBISCITE

With plebiscite on compulsory egg marketing rapidly approaching in Alberta, farmers should bear in mind hard economic truth that marketing boards are no substitute for markets. Neither, for that matter, is compulsory any substitute for freedom.

If Alberta farmers vote in favor of marketing board, they will be told that it will replace freedom in selling of eggs. It will mean, too, that the farmer will decide what price the farmer is to be paid for his eggs. And it will mean, too, that the marketing board will decide what the farmer is to be charged for the dubious services the board would offer as an egg salesman.

Real issue in egg-marketing plebiscite is not price. It is freedom. Alberta farmers, if they discern their own interests clearly, are not likely to vote against freedom — particularly when that freedom appears to be their own.

Local & District

Mrs. F. Isaac was a Calgary visitor last week.

Mrs. R. Olson is a patient in Hanna Hospital.

Charles Greer is a patient in Hanna Hospital.

Mrs. Marc Williams has been a Calgary visitor for the last week.

Mrs. O. Martin visited her husband in Calgary General Hospital last week.

Darlene Moran was a week and visitor at the home of her parents, Mr. and Mrs. L. Morton.

Mrs. F. Friedley is a patient in the Calgary General Hospital, where she underwent an operation.

Delta School teachers attended a Teachers' Institute meeting in Drumheller on Wednesday, Nov. 20th.

Five local hunters, Chuck Church, Mike Anderson, Lawrence Morton, and Jackie and Mac Taber, returned last Sunday night after a very successful moose hunt, bringing back four animals.

James Henry Blum passed away at Youngstown last Saturday evening, Nov. 16.

Mrs. L. Sirko and Mike went to Calgary last week. Mike is to have examinations before having his eyes and legs operated on later this year.

Mr. and Mrs. Lester Battle, accompanied by Mr. and Mrs. D. Doull and Mr. and Mrs. J. Eberle, motored to Calgary to attend Lions Tuesday night.

Winter has now arrived with all its old time vigor. It snowed lightly for a couple of days the latter part of last week, with lowering temperatures. At this writing (Tuesday) it remains cloudy, with occasional bright sunshine. Mid-day temperatures are around 30 above.

Mr. and Mrs. Fred Mason, who are in the lighting rod business, and have been away all summer, are now home for the winter at their residence in Dallas. Sorry to report that Fred has been under the weather for the past week, suffering from the flu and confined to the house. Here's hoping for a speedy recovery.
